REPORT

NSS camp being held at Shantivan from 28th Feb to 2nd March. An experience to have hands on to be helpful to the villagers, ranging from the check-up of the homemakers, school going children and encouraging them better oral hygiene practises.

Day 1-Having been divided in three groups, one group having reported at the camp conducted at the local school & one group conducted a village dental survey, interacting with all the members of the family, their dental health, spreading awareness and better maintenance techniques and the last one for shramadan

As we neared the end of the day, we were enlightened by our first guest speaker for the camp, Dr.Pankaj Mhatre on the topic-"Life".

Day2- everyone went on with the same groups but activities interchanged and provided our service as responsible ones. Today, at the school camp we brought some more additions, which included topical fluoride treatment for the children of age group below 13years and we did get a positive response from all the children, it indeed was overwhelming. As we came back after the days work, unaware something rewarding was awaited. After an hour, we were all pleased to have our

second guest speaker, Dr.Rohit Jadhav who shared their mighty knowledge about,"भारत भव - why meditation!

This camp wouldn't have been successful without the efforts of our very own mentors, professor's who guided us and taught us so many things.
