

TITLE OF STUDY

Primary Investigators

Co-Investigators/Guided by with affiliation

Introduction

- Brief with relevant photos
- **Add clinical significance of study**

Research question/s

- Primary research question/s

- Other research questions (if any)

Research Hypothesis

- Primary research hypothesis
- other Research hypothesis

Objectives

- Primary objectives
- Secondary objectives (if any)

Methodology

- Should be prepared in Flow chart
- Content should include :

Study design, study setting, sample size, sampling technique, Method of selection (Inclusion criteria, exclusion criteria and subject withdrawal criteria if applied),operational definitions, methods of measurements, study instruments/data collection tools, methods of data collection relevant to objective, Data analysis plans and methods

Annexure (Related to protocol)

- Inform consent
- Questionnaires
- Case record form
- Proformas
- Any other relevant documents

Time line

Budget

- Exclude the cost of statistical analysis
