Let's put your skills to the test...

Time for a Scavenger Hunt! In your groups, create a channel with your group name. Complete the following tasks and post your result to your channel:

1. Assign a task to each member in the group for a project action
2. Create a presentation and each team member add a slide on their favorite holiday destination
3. Share the weather report for the area tomorrow
4. Quickly gather the team's opinion in an efficient way
5. Notify everyone in your channel of a team meeting tomorrow (message must have title and each
   person receives a notification)

Dean

Microsoft

Learn more about Teams

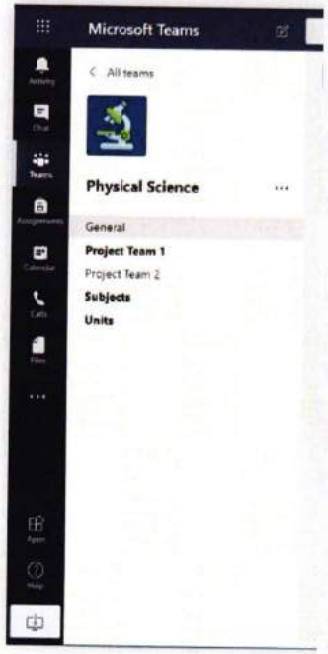
Class teams

Class teams provide special capabilities tailored for teaching and learning

Add channels and manage your team
You can change team settings, add members to the class team and add channels .

Open Class Notebook
Class Notebook is a digital binder you can use in your class to take notes and collaborate.



Every team has channels Click one to see the files and conversations about that topic, class unit, or week in the course. You can even have private channels for group projects!

Every team comes with a General channel. Open channel settings to add new channels, manage notifications and other settings.

Format your message
Add a subject, format text, convert the message to an announcement, post across multiple teams or control who can reply and more.

Dean
M.G.M. Dental College and Hospital,
Kamothe, Navi Mumbai 410 209.

Schedule a meeting with your team or class

Hold classes, staff collaboration meetings, or trainings over online meetings

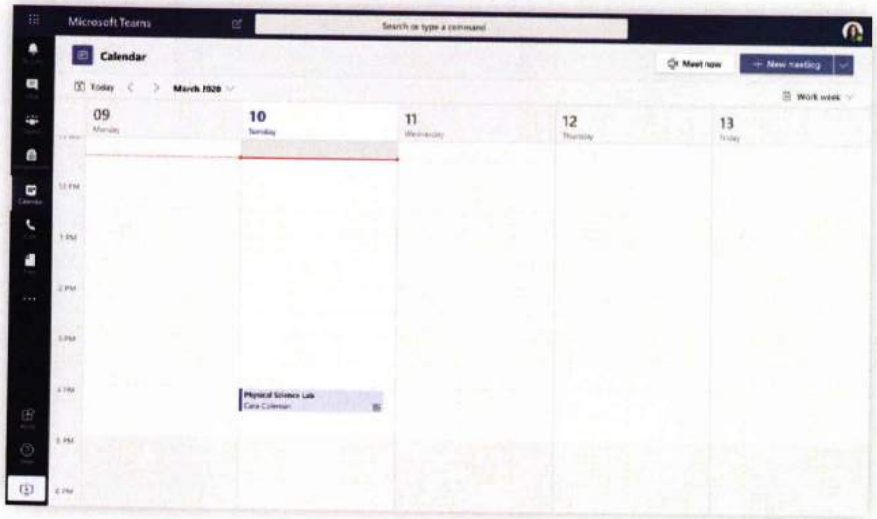
BRAND PRANITAA

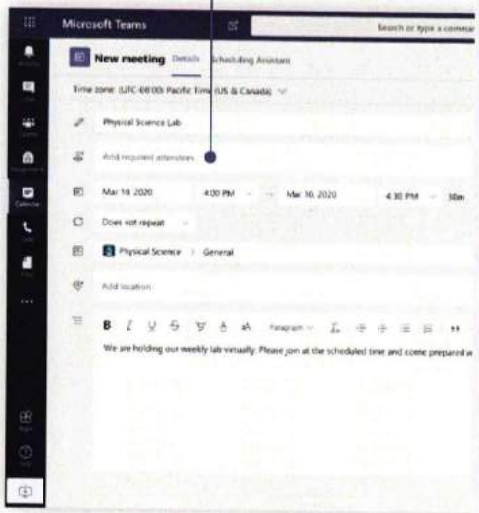
Start a meeting right away
Add participants directly to a meeting that starts right away.

Add new meeting
Schedule a new meeting for live discussion with up to 250 people or schedule a live event for a broadcasted event with a wider audience.

Invite individuals to a meeting
Invite one or more individuals to your meeting. Meeting recordings and resources shared during the meeting will be organized within the meeting history item in you Chat view.

Invite a channel to a meeting
Invite your whole class or working group to a meeting by selecting a channel to host the meeting. Meeting recordings and resources shared during meetings will be organized within the selected channel.





Dean
M.G.M. Dental College and Hospital,
Kamothe, Navi Mumbai 410 209.

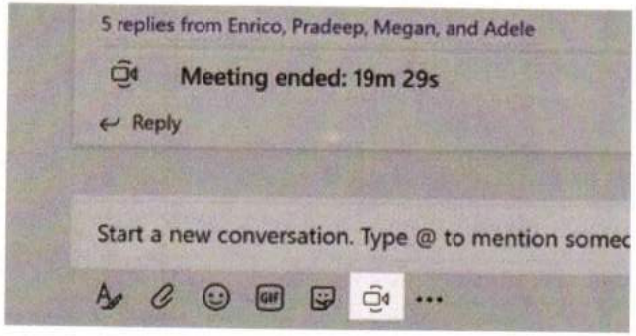
Microsoft Teams for Education

Microsoft

Learn more about Teams

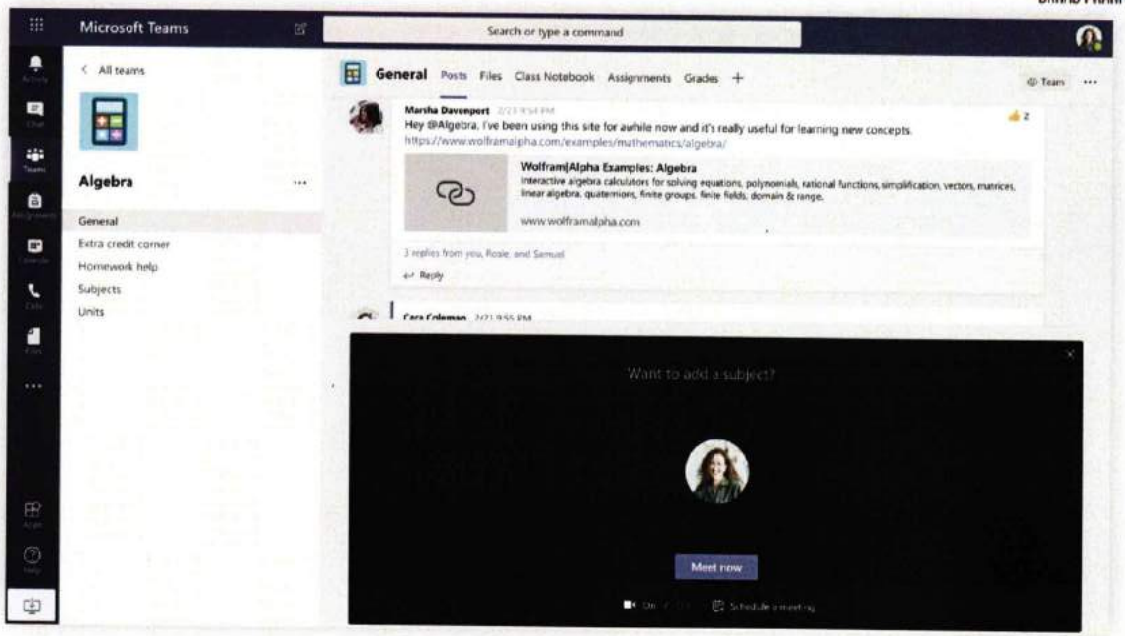
Schedule a meeting with your team or class

Hold classes, staff collaboration meetings, or trainings over online meetings



Click **Meet now** under the message box to start a live meeting in a channel. If you click **Reply** to a message, then the meeting will be attached to that conversation. If you wish to start an independent meeting that is not tied to a channel, then follow the instructions on the previous page by selecting **Calendar > New Meeting**.

You can invite people to the meeting or ask them to join it directly from the channel.



Select **Meet now** to start the meeting right away or **Schedule a meeting** to schedule the meeting for the future. Members of the channel will see an invitation for the meeting in their calendar if you decide to schedule it for later.

Dean

Enrich your channel posts

Create classroom announcements and posts. Edit your post to get your students' attention, control who replies, and post across multiple channels.

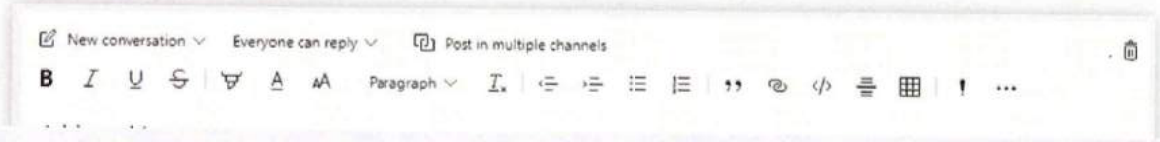
BRAND PRANITAA

Change your message type
Select if you want to start a new conversation topic or post an announcement.

Control who can reply
Allow everyone to reply to your post or limit replies to moderators only.

Post in any channel or team
Post your message in any of your teams and channels all at once. Great for broadcasting an important announcement!

Change the importance of your message
Mark your message as important if you want to draw more attention to the post.



Format your text
Change text color, format, and style.

Add a subject
Keep the topic of your new post clear by adding a subject.

M.G.M. Dental College and Hospital, Kamothe, Navi Mumbai 410 209.
Dean

Add a subject
Click here to enter a rich format mode for your message.

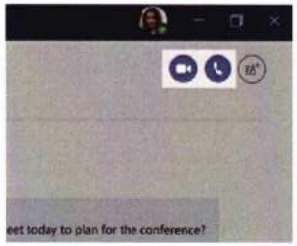
Microsoft Teams for Education

Microsoft

Learn more about Teams

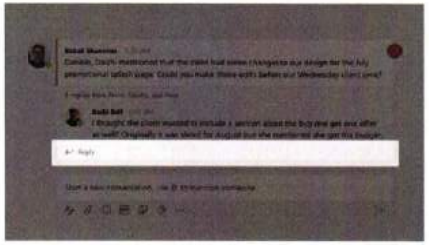
Make video and audio calls

Click **Video call** or **Audio call** to call someone from a chat. To dial a number, click **Calls** on the left and enter a phone number. View your call history and voicemail in the same area.



Reply to a conversation

Channel conversations are organized by date and then threaded. Find the thread you want to reply to, then click **Reply**. Add your thoughts and click **Send**.



@mention someone

To get someone's attention, type **@,** then their name (or pick them from the list that appears). Type **@team** to message everyone in a team or **@channel** to notify everyone who favorited that channel.

Add an emoji, meme, or GIF

Click **Sticker** under the box where you type your message, then pick a meme or sticker from one of the categories. There are also buttons for adding an emoji or GIF. Search for MicrosoftEDU in the GIF search box for extra fun!

M.G.M. Dental College and Hospital, Kamothe, Navi Mumbai 410 209.
Dean

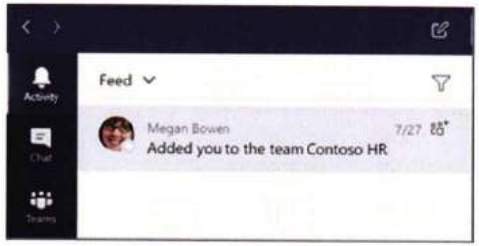
Microsoft Teams for Education

Microsoft

Learn more about Teams

Stay on top of things

Click **Activity** on the left. The **Feed** shows you all your notifications and everything that's happened lately in the channels you follow. This is also where you'll see notifications about your assignments.

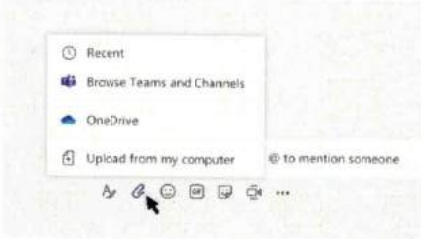


Add a tab in a channel

Click + by the tabs at the top of the channel, click the app you want, and then follow the prompts. Use **Search** if you don't see the app you want.

Share a file

Click **Attach** under the box where you type messages, select the file location and then the file you want. Depending on the location of the file, you'll get options for uploading a copy, sharing a link, or other ways to share.



Work with files

Click **Files** on the left to see all files shared across all of your teams. Click **Files** at the top of a channel to see all files shared in that channel. Click **More options ...** next to a file to see what you can do with it. In a channel, you can instantly turn a file into a tab at the top!

M.G.M. Dental College and Hospital, Kamothe, Navi Mumbai 410 209.
Dean

Microsoft Teams for Education

Microsoft

Learn more about Teams

Search for stuff

Type a phrase in the command box at the top of the app and press Enter. Then select the **Messages, People**, or **Files** tab. Select an item or click **Filter** to refine your search results.

Find your personal apps

Click **More added apps** to see your personal apps. You can open or uninstall them here. Add more apps under **Apps**. These apps provide an aggregate and global view of that content type.

Add apps

Click **Apps** on the left. Here, you can select apps you want to use in Teams, choose the appropriate settings, and **Add**.

Microsoft Teams for Education

Microsoft Teams for Education

If you're a school leader or IT Admin deploying Microsoft Teams for the first time, your goal is to set your administrators, schools, and teachers up for success from Day One. Brush up on some best practices for architecting your teams and channels to ensure streamlined communication and time-saving organization. We've broken it down for you in this handy guide.

We recommend adding educators to fewer, better organized teams vs. a team for every school initiative to model best practices from the beginning. As teachers begin participating in teams to communicate with their colleagues and administrators, they'll simultaneously begin learning how to organize and optimize their teams for students. This approach can be a fantastic strategy for game-changing Teams adoption in your school or district. We think you'll appreciate the inter-departmental efficiency and improved communication as well!

Configure Teams for Education

Microsoft Teams is a digital hub that brings conversations, meetings, files, and apps together in one place. Because Teams is built on Office 365, schools' benefit from integration with their familiar Office apps and services. It delivers enterprise-grade security and compliance that is extensible and customizable to fit the needs of every school.

With Microsoft Teams, your school or institution can create collaborative classrooms, connect in professional learning communities, communicate with school staff, coordinate research across institutions or more easily facilitate student life efforts like clubs or extracurricular activities – all from a single experience in Office 365 for Education.

Microsoft Teams for Education comes with all the powerful communication and collaboration tools that are available to other Teams users.

Unique Teams capabilities for education users:

1. A simplified Teams view that provides a simpler way to navigate and reduces visual distractions.
2. OneNote Class Notebooks are built into every class team, allowing teachers to organize interactive lessons and deliver personalized learning right from Teams.
3. End-to-end assignment management in Teams enables teachers to move quickly and effortlessly from creation and distribution to grading and feedback.

Assignments

Assign, track, and grade class assignments.

Screensharing

Share your screen or presentation in real time.

Immersive reader

Easily read conversations and chats in a more personalised format, all in Microsoft Teams.

Whiteboard

Collaborate in Microsoft Teams using a freeform, infinite digital canvas.

Raise your hand

Make your voice heard without disrupting other students.

Together mode

See the whole class in a new way for discussions and presentations.

Accessibility

Get America Sign Language visibility features, live closed captions (US only), and Immersive Reader.

Integration

Create custom educational experiences with Microsoft Teams and learning management system integration.

Custom background

Blur your meeting background, choose a free image, or upload your own.

Insights

Access student engagement data from an intuitive dashboard.

Moving to a virtual classroom

Creating an online classroom is an important step in moving to a remote learning environment. Microsoft Teams for Education provides an online classroom so students and teachers can find new ways to continue to focus on learning — free for schools and universities.

Unlock Limitless Learning

The world is changing faster than ever – as are the skills students will need to be life-ready by the time they graduate. With affordable and easy to manage technology that transforms classroom time, educators can focus on delivering personalized learning experiences that help enable better learning outcomes.

Support a hybrid learning environment

Creating an online classroom is an important step in moving to a remote learning environment. Microsoft Teams for Education provides an online classroom so students and teachers can find new ways to continue to focus on learning — free for schools and universities.

Provide built-in accessibility tools at no extra cost

Deliver individualized instruction at scale with easy access to free Office 365 Education and Learning Tools that give students of all abilities independence and the opportunity to learn without stigma.

Microsoft launches new Teams features to support the future of global education

June 16, 2020 | Microsoft News Center India

Over 150 million students, faculty, institutional leaders, and teachers have been actively using Microsoft Education products, with Microsoft Teams as their central hub, to engage students in remote learning.

New Delhi, 15 June 2020 – Microsoft announced 'Teams for Education' features to engage and prepare students and teachers for new remote and hybrid learning formats in the upcoming school year. These features include expanded audience view of up to 49

participants, custom backgrounds, class insights, and virtual breakout rooms, among other new features.

Surveying nearly 500 members of the Microsoft Education community, comprising teachers and institutional leaders from around the world, Microsoft found that there has been a strong uptake in the use of remote learning tools. 61 percent expect to begin the next school year in a hybrid learning environment—a mix of remote and in-person learning—and 87 percent said they expect to use technology more in physical classrooms.

Microsoft academic solutions is enabling learning and continuity schools in India. The British School in New Delhi moved to Microsoft Teams to enable its teachers and students interact and collaborate in remote learning scenarios. Others such as The Ardee School in New Friends Colony (NFC) had started with remote learning via Teams even before the schools were shut due to the COVID-19 pandemic. Moving to Teams has provided teachers new tools to engage with their students remotely. While some teachers are using Kahoot quizzes at the end of their classes, others are encouraging students to create and share content using Sway, Buncee, and Paint 3D. To replicate the test environment, teachers are also sharing Microsoft Forms on Teams, which they need to fill and send back.

"Many teachers and faculty have been incorporating new tools into their lessons, often for the first time and students are experiencing new methods of learning, which will have an important, lasting impact on their future. With this transition, it has become clear that with the required physical distance between teachers and students, it's more important than ever to help educators find ways to connect with students and keep them engaged, motivated, and safe in a digital world. It is inspiring to see how technology is helping educators and students maintain learning continuity," said **Manish Prakash, Country General Manager-Public Sector, Health and Education, Microsoft India**.

New remote learning formats require educators to create compelling, engaging, and inclusive content to ensure strong student engagement. To support this, educators are turning to a central hub of digital tools for remote learning across different activities, while maintaining secure learning environments. In fact, over 150 million students, faculty, institutional leaders, and teachers have been actively using Microsoft Education products—with Teams for Education as that hub—to engage students in remote learning. The new 'Teams for Education' features are aimed at increasing student participation and give educators' new methods to keep students digitally engaged.

- **Accommodate 49 participants at once on a single screen:** Teams will be expanding its grid view to 7×7, accommodating up to 49 participants to boost student engagement, as well as social and emotional connection. Previews will be available later this month and available more widely later in the year.

- **Virtual breakout rooms:** Educators will be able to create virtual breakout sessions for students to meet and collaborate in small groups closer to the end of the year.
- **Enhancing student participation:** In 'Teams for Education', students can digitally **Raise Their Hands** during class meetings. Educators can also see **Attendance Reports** and, later in the

year, view **Class Insights**, an intelligent data analytics breakdown on student engagement in class, rate of assignments turned in, activity metrics and grades, with a new trends view.

Meeting Lobby: Maintaining student security and control over the classroom experience is critical. **New meeting options in Teams** prevent students from starting meetings unattended, allows educators to determine who can present in a meeting, and give educators the ability to ensure only assigned students can join a meeting.

- **Customized images and personalize learning spaces:** With people working, living, and learning in shared spaces at home, in addition to using background blur and pre-selected background images, students and teachers can customize their own images and as a result, personalize their own learning space.
- **Partner integrations:** 'Teams for Education' now also includes integrations with Kahoot, Prezi, GO1, Nearpod, Piazza, Gaggle, Moodle, Canvas, and others. Microsoft will continue to add partner integrations making it easier for schools and universities to use Teams.

Providing accessible and inclusive education for students

Microsoft has also built in Learning Tools like Immersive Reader into Microsoft Word, Microsoft Edge, Teams, OneNote, Flipgrid, and Minecraft: Education Edition to enable parents to support students across all reading levels or those who have difficulty reading or writing due to dyslexia or dysgraphia. Today, Immersive Reader is empowering over 23 million people with dyslexia and learning disabilities globally every month.

Creating accessible education is a key priority and core value to Microsoft's approach for Education. New experiences like Microsoft Translator for Education, will empower educators to engage with students and their family members in their native languages as well as provide reading and literacy support via text and audio.

Public-private partnerships are critical to the future success of educational institutions

Microsoft will also continue working with a number of global non-governmental and non-profit organizations like UNESCO and UNICEF to harness technical expertise to support communities around the world with the highest need.

At the same time, educators, administrators, and institutional leaders will also be able to share their stories and tips or ask questions on the **Remote Learning Community.** With over 6,000 members, educators from around the world are providing professional development resources and coaching to complement what they receive from their individual administrators and districts. Microsoft Store Learning Experts will also be available to support educators and families with new resources and workshops.

About Microsoft

Microsoft (Nasdaq "MSFT" @microsoft) enables digital transformation for the era of an intelligent cloud and an intelligent edge. Its mission is to empower every person and every organization on the planet to achieve more. Microsoft set up its India operations in 1990.
