NSS BLOOD DONATION CAMP

Date: 30/01/2017

Venue: MGM Dental College Campus, Kamothe, Navi Mumbai

On 6th February, 2017 the NSS Unit of MGM Dental College & Hospital, Kamothe, Navi Mumbai, organised a blood donation camp in the dental college campus. The main motive was to increase awareness and participation among individuals with regards to blood donation. The following steps were undertaken by the volunteers and assisting medical staff:

1. Registration of donors and all other necessary information processing.
2. Pre-donation counselling, the medical history and the health check-up to determine donors' fitness to donate blood with facilities available for confidential discussions between donors and medical staff.
3. Provision of sufficient bed and seating arrangements for donors and staff respectively, with allowance made for possible queues during busy periods.
4. Withdrawal of blood from donors without risk of contamination or errors.
5. Special care for the storage of equipment, reagents and adoption of suitable methods of waste disposal.

6. Felicitation of the donors for their noble act with a certificate of appreciation.

The camp proved a success as a good number of people, with a large number of young adults, participated in the programme and the aim of the same was well established and propagated.
