**Independence Day**

15th August 2017- The 70th Independence Day of India from the slavery of British but now the ruling hand is the social media and the fight against this for independence has just started. The team of NSS MGMDCH thought to contribute to this fight and hence presented a small skit enlightening the hazards of social media.

Many powerful and needful issues were included in this presentation one of them was the bluewhale game. This game was one of the recent proofs of tremendous capacity of human brains where a simple game can make the player take his own life as the stage of the game advances. A huge amount of youngsters had already died because of this game and a lot were still addicted. Hence NSS took a small step in curbing the promotion of such irrelevant games. Also the points like distance from family, depression, loneliness caused by social media and its adverse effects were high lightened in this event. The students of NSS were proud to be a part of this event spreading across a new message amongst the youth.
