### CONCLUSION

It can be concluded that communal violence is one of the biggest problems our country is facing today. The result of communal violence is the loss of private property in the form of household articles of families, moveables and loss of earning by loss of lives of bread earners. Even Communal peace and harmony gets completely shattered after any communal violence. So it is necessary that our agencies must work in fair and just manner and they have to take prompt action to control the communal violence and to maintain the communal harmony.
