## Assessment of Oral Health Status and Treatment need of patients at Rural Hospital Kashele.

MGM Dental College in association with IDA constantly takes efforts of extending the oral health care to the community. The oral care initiative was also extended to patients at **Rural Hospital Kashele** with the intention of creating awareness and providing oral health care to the patients.

### **Aim and objective:**

1. To assess the oral health status of patients and to provide necessary Dental treatment.
2. To educate them and create awareness about oral health.

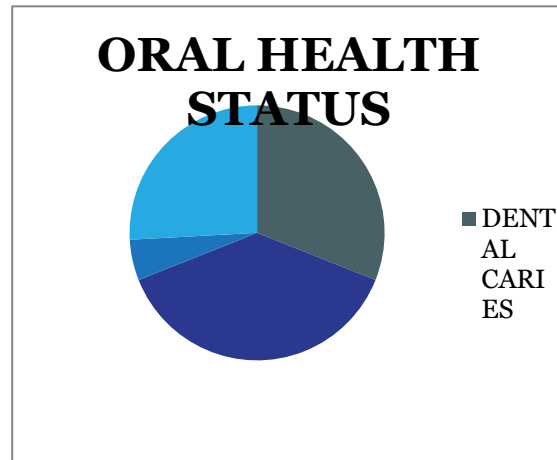

### **Method:**

A type III examination was carried out with the use of mouth mirror and probe in day light. All the patients were assessed for oral health status and were explained the need to get the problems corrected. The patients were made aware of the existing dental problems and preventive measures were explained.

**Observations:** A total of 52 patients were examined for various dental problems. Dental extractions were performed on 24 patients who had extensive decay. Biopsy was performed on a patient who had a white lesion on buccal mucosa by the Oral Surgery Department. Patients requiring extensive treatment were referred to MGM DENTAL COLLEGE AND HOSPITAL.

### **1 Oral health status:**

Condition	No. of individuals	Percentage %
Dental caries	18	36%
Gingivitis	15	30%
Missing	22	44%
Malocclusion	03	06%

### **Interpretation and conclusion:**

**Missing teeth is the most common problem among the patients followed by dental caries & Gingivitis.**

**Oral health education and prevention strategies should be implemented in order to reduce the disease burden among these patients**
