ASSESSMENT OF ORAL HEALTH STATUS AND TREATMENT NEED OF PATIENTS AT APMC MARKET, VASHI.

Summary

MGM Dental College constantly takes efforts of extending the oral health care to the community. The oral care initiative was also extended to patients at **APMC Market, Vashi** with the intention of creating awareness and providing oral health care to the patients.

Aim and objective:

1. To assess the oral health status of patients and to provide necessary Dental treatment.
2. To educate them and create awareness about oral health.

Method:

A type III examination was carried out with the use of mouth mirror and probe in day light. All the patients were assessed for oral health status and were explained the need to get the problems corrected. The patients were made aware of the existing dental problems and preventive measures were explained.

Observations: A total of 32 patients were examined for various dental problems. Those requiring extensive treatment were referred to MGM Dental College and Hospital, Kamothe.

1 Oral health status:

| Condition | No. of individuals | Percentage % |
|---------------|--------------------|--------------|
| Dental caries | 12 | 37.5% |
| Gingivitis | 13 | 40.63% |
| Missing | 6 | 18.75% |
| Malocclusion | 1 | 3.13% |

Interpretation and conclusion:

- 1) Gingivitis is the most common problem among the patients followed by dental caries
- 2) Oral health education and prevention strategies should be implemented in order to reduce the disease burden among these patients.

Dear Dr Vaibhav,

Thanks a lot for your cooperation and support for sharing Interns team

We require 8 interns team on 29th Nov till 3rd Dec and 6th till 8th December 2021 (except Sat Sunday 4 & 5th Dec) at NMMC Turbhe Depot their depo location Area - Turbhe NMMC Depot opposite station Navi Mumbai, Maharashtra 400701

We need 8 interns to be present everyday.
Timing will be 10 am till 6 pm

Coordinator - Ms Tejal from IDA - 8879671710
Logistics arrangement - IDA will do, Face mask, Gloves, Screening material

Interns should wear their Apron, In these locations we will not get any Tea/Refreshment/Water facility from organizer (Lunch will be providing to interns by Organizer)
We request interns to carry their own Tiffin/Drinking water or other stuff as a COVID protocol. We stick to this protocol almost for all camps.

IDA will reimburse per intern Rs.350/- as a TA/DA per day for the camp.
a. For the payment will get processed on a monthly basis as per no of camps done by that Intern IDA will issue them by chq.

Participants will get Certificate from IDA and Karkinos for this campaign.

share me the names with contact no and email id for mobile app registration.
Data they have to make entry digitized From Play store download vpn connect app for registering data online.
Once you give me names I will share the demo link for the entire programme

Regards,
Nrupali Chitnis

Thanking you.

ASSESSMENT OF ORAL HEALTH STATUS AND TREATMENT NEED OF PATIENTS AT NMMT BUS DEPOT ASUDGAON.

Summary

MGM Dental College in association with IDA constantly takes efforts of extending the oral health care to the community. The oral care initiative was also extended to patients at **NMMT Bus Depot Asudgaon** with the intention of creating awareness and providing oral health care to the patients.

Aim and objective:

1. To assess the oral health status of patients and to provide necessary Dental treatment.
2. To educate them and create awareness about oral health.

Method:

A type III examination was carried out with the use of mouth mirror and probe in day light. All the patients were assessed for oral health status and were explained the need to get the problems corrected. The patients were made aware of the existing dental problems and preventive measures were explained.

Observations: A total of 162 patients were examined for various dental problems. Those requiring extensive treatment were referred to MGM Dental College and Hospital, Kamothe.

1 Oral health status:

| Condition | No. of individuals | Percentage % |
|---------------|--------------------|--------------|
| Dental caries | 74 | 45.6% |
| Gingivitis | 45 | 27.7% |
| Missing | 25 | 15.4% |
| Malocclusion | 18 | 11.1% |

Interpretation and conclusion:

Dental caries is the most common problem among the patients followed by Gingivitis

Oral health education and prevention strategies should be implemented in order to reduce the disease burden among these patients.

ASSESSMENT OF ORAL HEALTH STATUS AND TREATMENT NEED OF PATIENTS AT PARKER HANNIFIN INDIA PVT LTD MAHAPE.

Summary

MGM Dental College constantly takes efforts of extending the oral health care to the community. The oral care initiative was also extended to patients at **Parker Hannifin India Pvt Ltd Mahape** with the intention of creating awareness and providing oral health care to the patients.

Aim and objective:

1. To assess the oral health status of patients and to provide necessary Dental treatment.
2. To educate them and create awareness about oral health.

Method:

A type III examination was carried out with the use of mouth mirror and probe in day light. All the patients were assessed for oral health status and were explained the need to get the problems corrected. The patients were made aware of the existing dental problems and preventive measures were explained. A total of 127 patients were examined for various dental problems. Those requiring extensive treatment were referred to MGM Dental College and Hospital, Kamothe.

Oral health status:

| Condition | No. of individuals | Percentage % |
|------------------|---------------------------|---------------------|
| Dental caries | 60 | 47.2% |
| Gingivitis | 45 | 35.43% |
| Missing | 17 | 13.38% |
| Malocclusion | 5 | 3.93% |

Sign:

ORAL HEALTH STATUS

Interpretation and conclusion: Dental caries is the most common problem among the patients followed by gingivitis and missing of the same.

Oral health education and prevention strategies should be implemented in order to reduce the disease burden among these patients.
