REPORT

A blood donation camp was organized in the MGM Dental College itself as a support to our armed forces and civilians who may be affected by the current situation-arising from the India- Pakistan conflict. In these critical times, as the need for blood may increase significantly.

As a humble gesture of solidarity and patriotism, we organized a blood donation camp in collaboration with esteemed blood bank of Dept. Of Immunohematology and Blood Transfusion, MGM Medical College & Hospital.

We need 12 million units of blood every year but just about nine million units are being donated. Our college has been religiously organizing blood donation camps, students and the faculty members come forward voluntarily to donate blood. Blood donation can save lives of innumerable persons. Donation of blood is very critical and crucial for saving lives of many patients and those who have met with accidents. It is as such a great service or contribution to the society and people living in it, especially in such crucial times.

A team of doctors and nurses from MGM Medical College & Hospital had aided in our initiative. About 28 volunteers, including staff and students of the college had helped organized this blood donation camp. Thirteen individuals contributed in this noble cause. Individuals were thoroughly screened for following parameters, height, weight, age, hemoglobin, health, blood pressure, temperature, physical examination, recent illness and medication and travel history before donating blood. Proper arrangements for refreshments and rest areas were made for each donor post donation. Informative posters and presentations were displayed to educate participants about the health benefits and myths surrounding blood donation.
